Speedster

300SL

E-Type

Jeep

Type 35

Speedster

The legendary timeless classic in miniature.

Composite chassis and body shell. Working lights, indicators & horn.

The largest cockpit of our cars, suitable for ages 6 up to medium adults.

Fixed pedals with an adjustable seat.

300SL

An accurate half scale version of the unmistakable 1950's sports car.

Composite chassis and body shell. Working lights, indicators & horn.

Suitable for ages 6 up to small adults.

E-Type

We've created a half-size version of arguably the most beautiful car ever made.

Composite chassis and body shell. Working lights, indicators & horn.

Suitable for ages 6 up to small adults. Fixed pedals, adjustable seat.

Jeep

The Jeep is perhaps the most versatile of the vehicles we produce.

It comfortably seats 2 adults, has all round suspension, great ground clearance, and a tough steel chassis.

Working lights, indicators, horn, and electric start.

Type 35

A recreation of the classic race car for ages from 4-12 years.

However, we do also offer an option, with a removable rear seat, and flip out foot pegs (either side and under the floor) so a parent can sit on too, and teach junior to drive.

Fixed foot pedal, rear brakes operated by the hand lever on the right hand side, and a working horn.

About us

We produce a variety of bespoke toy cars. Each car is lovingly handmade, taking in excess of 450 hours to craft. We can build your personalised car to any specification that you wish.

These toys are 100% serviceable, and virtually indestructible. With composite bodies and chassis, they will literally last for generations. All the mechanicals are over-engineered to ensure durability.

These really are the best toys in the world!

Please email us at contact@pocketclassics.co.uk, or visit www.pocketclassics.co.uk for more information, prices and ordering.

Our vehicles are miniature recreations of some of the world's most famous cars. We are not connected in any way with Porsche, Jaguar, Bugatti, Willys or Mercedes. These vehicles are in no way endorsed by any of the manufacturers, have no commercial relationship with those companies and are designed as tributes only. We do not imply that any Pocket Classics vehicle is the product of any other manufacturer, is endorsed by, or has any association whatsoever.

These vehicles are designed as toys for use under adult supervision. They are not road legal and should only be used on private ground.
